Screw Pads that Adjust to Your Needs

Adjustable screw lift pads provide the operator with a greater level vertical control when operating a BendPak 9,000-lb. or 10,000-lb. two-post car lift. Gives an extra 3" of clearance. Rubber top screw pad comes with one receiver. Each sold separately.

Features

- Vertically adjustable screw-type lift pads
- Fits 9,000 and 10,000-lb. capacity BendPak two-post lifts, except for: XPR-9-LP, XPR-10-LP and XPR-10A-LP
- Gives additional 3" of fine pad adjustment
- Rubber top screw pad includes one receiver
- Each sold separately

Not for use on these BendPak two-post lifts with Low-Profile Arms
